

## CANOE TOURS IN RIVER AND LAKE

Wetlandi canoe center – at the shore of the greatest and most beautiful lake of Skåne

**The northeastern part of Skåne** is the region's very own bush land. The largest lake in Skåne, Lake Ivö, and its archipelago offers great paddling opportunities. Here you find several islands with places to visit and bathing bays to enjoy. In Holjeå stream, a local creek which is pouring out in Lake Ivö, you can have exciting canoe expeditions in a tropical environment and experience a timeless feeling.

Apart from paddling, there are good fishing facilities. The magnificent landscape around the lake has several nature trails where you can hike and bike through one of northern Europe's largest beech forests. The area's exciting history, with all its legends and myths, is a constant presence.

Maps and more information  
[Ivösjöns Arkipelag](#) - [Holjeåleden](#).

**Wetlandi's Canoe Centre** is situated in the east part of the lake. It's quick and easy to get to all of the islands of Lake Ivö as well as to Holjeå stream. Several of the islands have camps with benches and barbeque sites for the visitors. Two of the camps also have simple wind shelters. You can visit the beaches to sunbath, swim, and picnic – or just to enjoy the silence and the fabulous views.

Those who wish to stay the night and try to live like Robinson Crusoe for a while can set up their camp for the night on the islands. Wetlandi offers tent and equipment to hire for those who haven't brought their own.

In the area around the lake, there are several nature trails that offer opportunities to hike, bike and paddle.

Total travel time with public transport from Copenhagen Airport is around two hours. You easily come to our center the whole way. Buses depart from Bromölla train station every hour.

### FACTS
